Dear Chamber Member,

As you are probably aware, Vulcan Materials Company recently submitted a new plan for Azusa Rock. Since acquiring Azusa Rock in 1999, Vulcan has been an active member of the Chamber of Commerce and has worked to create a new mining plan, with the goal of dramatically improving the appearance for this and future generations. Since mining at Azusa Rock will continue until 2038, this is an opportunity to secure a new, better plan for our community.

Azusa Rock produces aggregate materials which are used to build critical infrastructure projects in Azusa and our surrounding region including roads, hospitals and homes.

I am pleased to invite you to learn more about the new plan and Azusa Rock's future. I hope you will be able to join me:
